

Lifelong Learning Programme

Core CPD topics for graduate dentists

Harmonization & Standardization of European Dental Schools' Programs of Continuing Professional Development (CPD) for Graduate Dentists (Project number 509961-LLP-1-2010-1-UK-ERASMUS-EMHE) is a study part funded by the European Commission. One element of the study is concerned to identify and seek consensus on 'essential' CPD requirements for all EU graduate dentists. As part of that, and under the auspices of ADEE (the Association for Dental Education in Europe), we have surveyed dental associations, dental schools and others across Europe. One question asked respondents to indicate whether topics, in a given list, should be compulsory. On this form we show only those topics achieving at least 50% agreement. As the second stage in the consensus process we are presenting these topics to sample groups of dental practitioners and others in Europe and we invite *you* to take part. Completed questionnaires are anonymous and confidential.

1. For the following list of CPD topics, please indicate which you think should be compulsory, regardless of whether or not they are currently compulsory topics

Topic	Should be compulsory?	
	Yes	No
Cardiopulmonary resuscitation, medical emergencies	<input type="checkbox"/>	<input type="checkbox"/>
