Break out sessions

# GOOD GROUND RULES

- Listen to each other
- Respect each others thinking
- Stay open to new ideas
- One speaker at a time
- Everyone participates, no one dominates
- Ask “What is possible?”

# BREAK INTO GROUPS

Discuss the following questions

- What are the important problems that could be solved by new scientific discoveries and how do we introduce them to our students?
- How do we create critical thinkers?
- How do we encourage evidence-based dentistry?
- How should research and research methodology be integrated into the curriculum?
